

Persons with Disabilities Median Earnings

Median Earnings for Persons with Disabilities (Ages 16 and over)

NEW

This Indicator Measures... the median earnings during the 12 month reporting period for those who are 16 years and over with a disability with earnings.

This is Important Because... persons with disabilities can contribute equally to the work force and community as well as benefit economically and socially.

Source: U.S. Census, American Community Survey

Note: The age grouping is predetermined by the American Community Survey. Flagler County earnings fluctuated and decreased over the reporting period. Volusia County earnings fluctuated over the reporting period. *Flagler data has a large margin of error.

Persons without Disabilities Median Earnings

Median Earnings for Persons without Disabilities (Ages 16 and over)

This Indicator Measures... the median earnings during the 12-month reporting period for those who are 16 years and over without a disability with earnings.

NEW

This is included for comparison purposes for the above indicator, Persons with Disabilities and Poverty.

Source: U.S. Census, American Community Survey

Note: The age grouping is predetermined by the American Community Survey. Flagler County earnings fluctuated over the reporting period. Volusia County earnings increased over the years reported. *Flagler data has a large margin of error.

Households with at Least One Person with a Disability

Percent of Households with At Least One Person with a Disability

NEW

This Indicator Measures... the percent of households where at least one person with at least one disability lives.

This is Important Because... to ensure adequate access to services for persons with a disability and caregivers, it is important to know the size of the population who may potentially need to access services.

Source: U.S. Census, American Community Survey

Note: The Flagler County percent peaked in 2013 then decreased through 2016 ending where it began in 2012. The Volusia County rate fluctuated and increased over the reporting period.

*Flagler data has a large margin of error.
